

## Cumulative Review

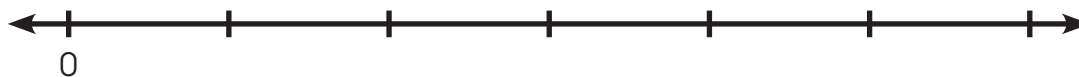

Use the table below to answer question 1.

1. I can run 1 mile in 6 minutes. How many minutes did it take me to run 5 miles?

Miles	Minutes	Addition Sentence	Multiplication Sentence	Total
1	6	none	$1 \times 6 = 6$	6
2	6	$6 + 6$	$2 \times 6 = 12$	12
3				
4				
5				

I ran 5 miles in \_\_\_\_\_ minutes.

2. Check your work by creating a number line.

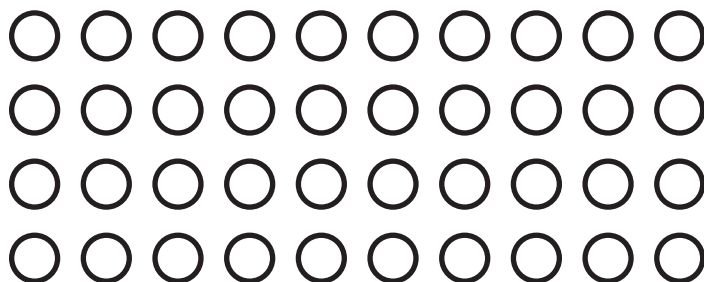

## Cumulative Review (cont.)

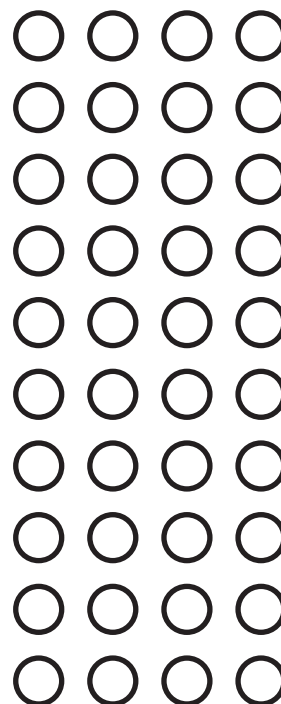

Are the two expressions equal?

3. \_\_\_\_\_

$4 \times 10$

$10 \times 4$

4. \_\_\_\_\_

$12 + 12 + 12 + 12 + 12$

$3 \times 12$

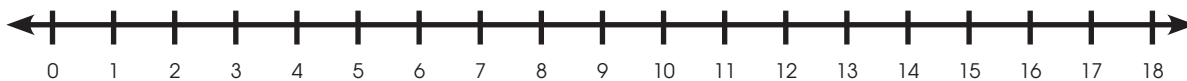

## Practice 1

Partition the number line to solve each division problem.

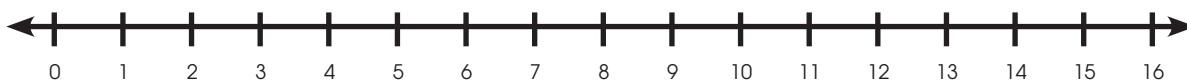

1.  $36 \div 6 =$  \_\_\_\_\_

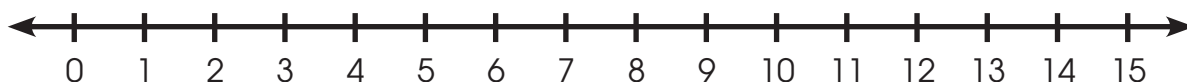

2.  $18 \div 2 =$  \_\_\_\_\_

3. There are 16 objects in groups of 4. How many groups are there? \_\_\_\_\_

4. There are 15 objects in groups of 3. How many groups are there? \_\_\_\_\_

## Practice 2

Partition the number line to solve each division problem.

1. There are 21 objects in groups of 3. How many groups are there? \_\_\_\_\_

2.  $35 \div 7 =$  \_\_\_\_\_

3. There are 24 objects in groups of 8. How many groups are there? \_\_\_\_\_

4.  $12 \div 6 =$  \_\_\_\_\_

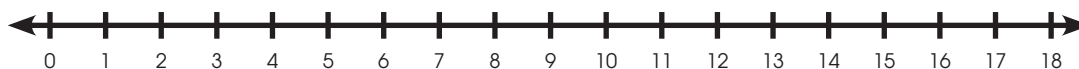

Name: \_\_\_\_\_

## Independent Practice

Partition the number line to solve each division problem.

1.  $18 \div 6 =$  \_\_\_\_\_

2. There are 25 objects in groups of 5. How many groups are there? \_\_\_\_\_

3. There are 22 objects in groups of 2. How many groups are there? \_\_\_\_\_

4.  $28 \div 7 =$  \_\_\_\_\_

## Answer Key: Cumulative Review

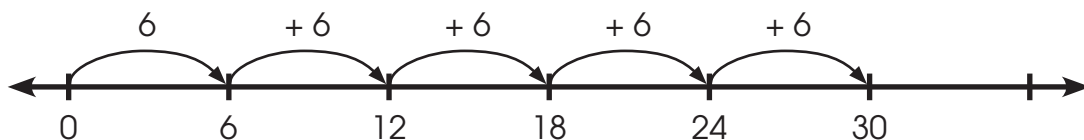

Use the table below to answer question 1.

1. I can run 1 mile in 6 minutes. How many minutes did it take me to run 5 miles?

Miles	Minutes	Addition Sentence	Multiplication Sentence	Total
1	6	none	$1 \times 6 = 6$	6
2	6	$6 + 6$	$2 \times 6 = 12$	12
3	6	$6 + 6 + 6$	$3 \times 6 = 18$	18
4	6	$6 + 6 + 6 + 6$	$4 \times 6 = 24$	24
5	6	$6 + 6 + 6 + 6 + 6$	$5 \times 6 = 30$	30

I ran 5 miles in 30 minutes.

2. Check your work by creating a number line.

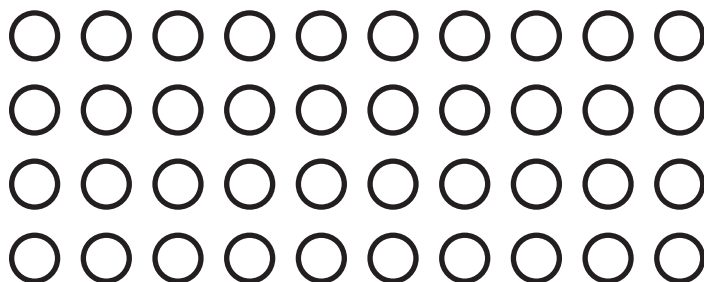

## Answer Key: Cumulative Review (cont.)

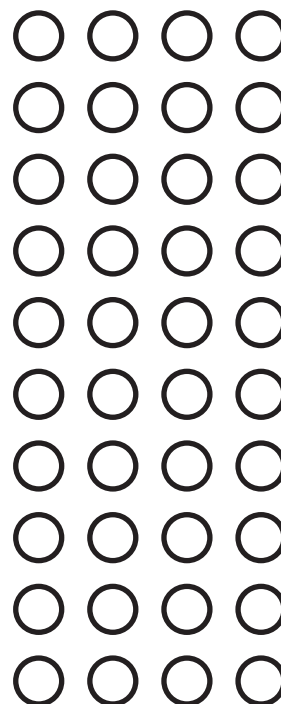

Are the two expressions equal?

3. Yes

$$4 \times 10$$

$$10 \times 4$$

4. No

$$12 + 12 + 12 + 12 + 12$$

$$3 \times 12$$

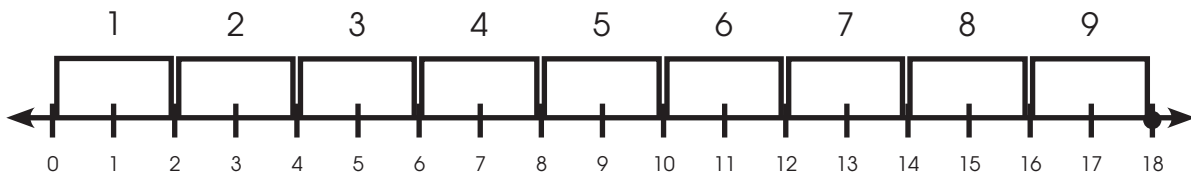

## Answer Key: Practice 1

Partition the number line to solve each division problem.

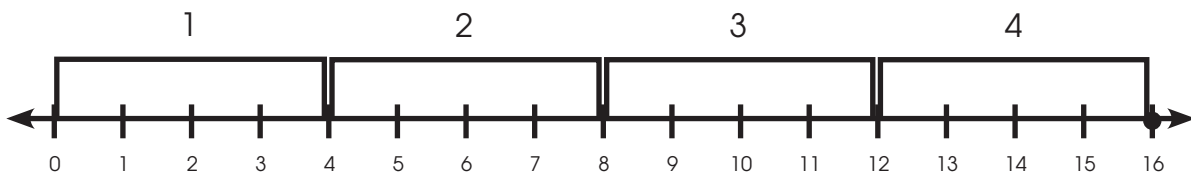

1.  $36 \div 6 = \underline{6}$

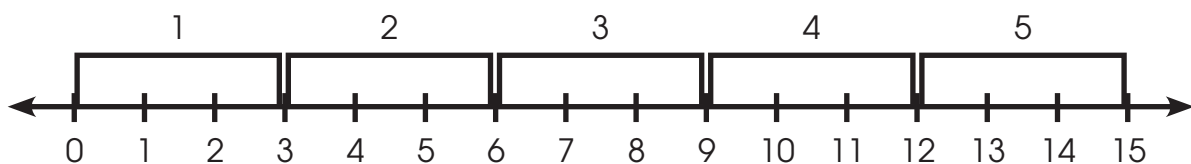

2.  $18 \div 2 = \underline{9}$

3. There are 16 objects in groups of 4. How many groups are there? 4

4. There are 15 objects in groups of 3. How many groups are there? 5

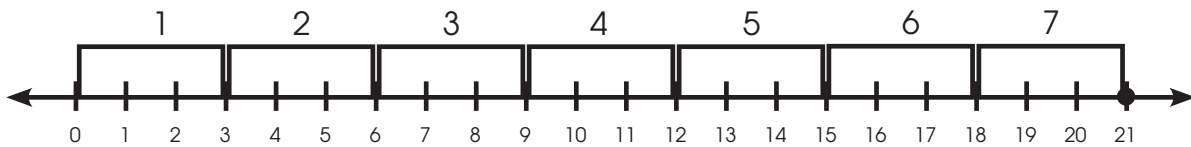

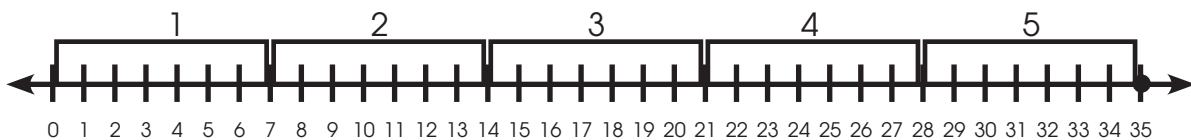

## Answer Key: Practice 2

Partition the number line to solve each division problem.

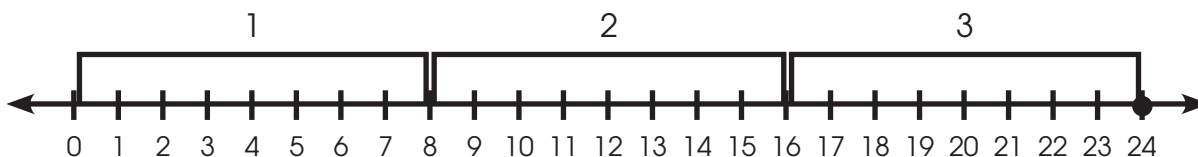

1. There are 21 objects in groups of 3. How many groups are there? 7

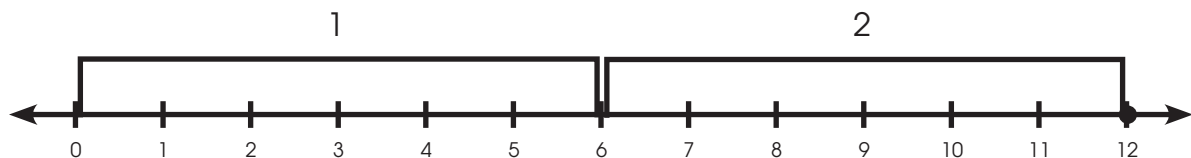

2.  $35 \div 7 =$  5

3. There are 24 objects in groups of 8. How many groups are there? 3

4.  $12 \div 6 =$  2

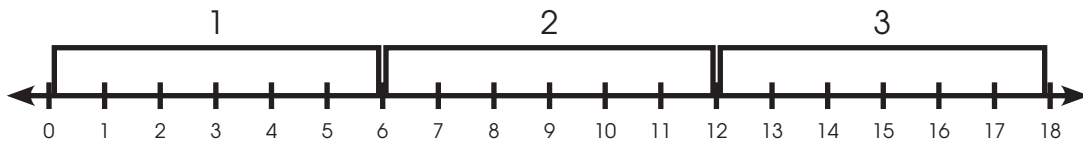

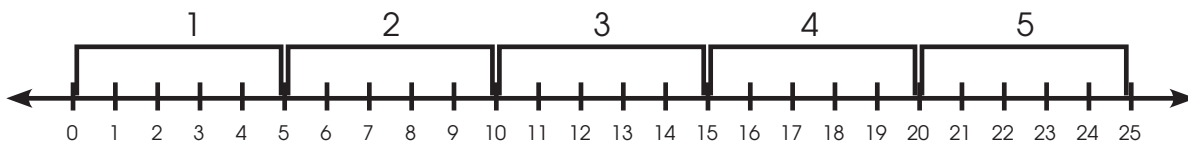

## Answer Key: Independent Practice

Partition the number line to solve each division problem.

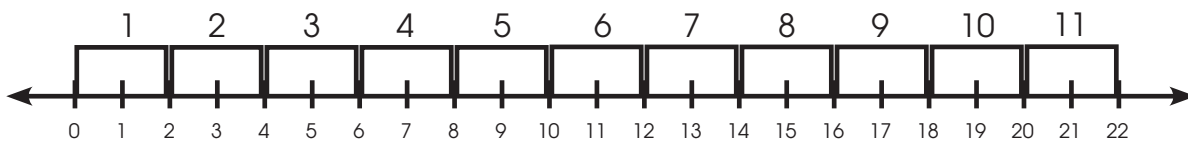

1.  $18 \div 6 = \underline{3}$

2. There are 25 objects in groups of 5. How many groups are there? 5

3. There are 22 objects in groups of 2. How many groups are there? 11

4.  $28 \div 7 = \underline{4}$
